About Round Square

With a network of international schools in more than 40 countries on five continents, Round Square provides a catalyst and framework for students to engage in a holistic programme of self-discovery.

Built around six IDEALS of learning, the Round Square approach aims to inspire and draw out from every child their capacity for achievement and excellence.

Round Square member schools share knowledge, expertise, and ideas, they collaborate on conference, classroom and service opportunities, and have the opportunity to exchange students, teachers and resources. Together the schools in our network recognise that learning is most effective when it is practical, cross-cultural and collaborative.
